A SISTER'S HOPE

Funding breast cancer research

Saving lives by funding research that looks for better treatments and a cure

October 11-12!

Events to save lives! Don't just stand there. Do something.

A Sister's Hope is no longer just a non-profit organization producing events to raise money for breast

cancer research. A Sister's Hope receives corporate support, individual general donations,

way to help more children celebrate more Mother's Days with their mothers.

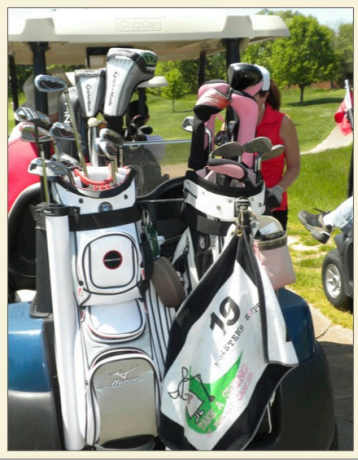

contributions from other events held to benefit this mission, and of course, we still produce physically active events to bring people out into the world for the benefit of all. When you participate in A Sister's Hope event - the 60K Walk in October, the Take a Swing at Breast Cancer golf tournament or the Pink Moon Run & Walk - you not only are getting more fit and mentally strong, you also are helping people around the world who are facing or will face breast cancer.

So whichever way you choose to contribute, choose a

Imagine a 7-year-old child waking up on Mother's Day and knowing they will never again hug their mommy's neck on this special day. We can help them make more memories together.

Charity events for breast cancer: which should you choose? A Sister's Hope is a top choice!

When your main charitable objective is funding breast cancer researchers who are looking for more effective treatments, your best choice for organizations to join is A Sister's Hope. Since 2007, we have supported 25 projects led by 17 of some of Holland's most prestigious researchers at the seven university medical centers across the country. The focus is clear.

The money reaches the researchers quickly. Each year, several researchers fail to secure funding for their projects because available funds have been

60K Walk!

allocated to large, multi-year projects, and the money sits in an account waiting to be used while the loved ones of many die from breast cancer. This is unacceptable and must change.

If a researcher needs 2.5 million euro for a 4-year project, she can start with 750,000 euro the first year and ask for more funding the next year.

Meanwhile, other brilliant researchers can share the other 1,750,000 euro to move their ideas forward.

We must adjust and do things in a way that recognizes TIME IS CRITICAL. When the life of your partner, your mother, your daughter or yourself is the one who could be saved by moving things along more quickly, wouldn't you agree?

HOLD ONTO H-O-P-E

HOPE	OPPORTUNITY	PURPOSE	END
Hold onto hope Believe in what you are doing. Give others the belief we can beat cancer.	Take this one The 60K Walk opportunity is a way you can make a huge difference to beat cancer.	We all have it Each of us has purpose and if we combine our talents and energy, we can beat cancer.	This disease We all want to see an end to it. Let's work together to beat cancer. Register HERE
