6th Annual
Pink Moon Run & Walk bij het Muiderslot

The Netherlands - July 12
13,000 euro for research!

MUIDEN – A beautiful mid-July night at the 12th century castle Muiderslot with 250 happy walkers and runners resulted in another 13,000 euro raised for breast cancer researchers in The Netherlands.

Our most sincere thanks to Roeland van der Mijn who is in charge and cares for Muiderslot. Deep gratitude to Meta Blum and her teammates for raising more than 3,000 euro, and to Fatima Huitema and Esma Jongenelis for each raising more than 1,000 euro. The pink glow of the night shines on as we prepare to raise even more with the 60K Walk in October.

Tandengoud actie gaining momentum

It all started when Monique Helfrich decided to walk the 60K in 2007. She has been a devoted participant of the October event each year and, at some point, her husband, Erik de Maijer, a dentist, decided to get involved.

EDM Tandartsen has established an enormously successful "Tooth gold" action that this year already has generated about 50,000 euro. The funds are transferred to A Sister's Hope and then directed to the breast cancer researchers who are selected by the A Sister's Hope Medical Review Team for funding this year.

To learn how you can get your dentist involved in this program, contact Erik at Info@EDMTandartsen.nl

U bent goud waard!

A SISTER'S HOPE

13,000 EURO!

"We walk for ourselves, our sisters, our brothers, our mothers, our fathers, our daughters, our friends, the next generation... hopefully, the last generation that will have to fear breast c...

Still time to register for the 2014 60K Walk Oct. 11-12
